THE LIGHTBULB, THE TELEPHONE, THE STANLEY.

It's hard to imagine going on a hike, camping trip, or even a morning commute without your trusted insulated bottle topped off with water or coffee. But that's the world in which William Stanley Jr. was living way back in 1913. That is, until he single-handedly changed the way we enjoy our drinks of choice.

Stanley, a physicist, engineer, and pioneer in the electrical field was a human patent-making machine, often compared to the likes of Edison and Tesla. Of all of his inventions, one still bears his name a century later. In 1913, with a bit of tinkering and old-fashioned ingenuity, he created the world's first all-steel vacuum-insulated bottle.

Over one hundred years later, the Stanley brand has been the copilot for everything from daily coffee breaks to the most extreme outdoor adventures. And it's William Stanley Jr.'s legacy that keeps pushing us to see how far we can go.

A man with dark hair and a beard is sitting in the driver's seat of a car, drinking from a black Stanley mug. The car's interior is visible, including the dashboard, steering wheel, and rearview mirror. The background shows a rocky, desert-like landscape. In the top left corner, there is a teal square with the text 'Go SERIES' in white. On the right side, there is a large white text overlay and a smaller paragraph of text below it.

Go
SERIES

YOUR SUNDAY MORNING MUG ON STERIODS.

No offense, but that ceramic mug you drink out of in the morning isn't so hot. Literally. Sure, it feels familiar to drink out of smooth ceramic, but does it keep your coffee hot all day? Nope. Does it fit in your car cup holder? Doubtful. So why not have a better one? Like the Stanley Ceramivac™ Go Travel Mug. An on-the-go, leak proof, stainless steel tough, ceramic finished mug that nobody's breaking, not even if they drop it from 1,000 ft. Made from double-wall vacuum insulated stainless steel for all day thermals and a Ceramivac™ finish that means no metallic taste, or smell, and it's prepped for all kinds of adventure with a Lifetime Guarantee.

It's sounding more and more like your old mug might need to take a dive on purpose.

BOLD + FUNCTIONAL

This truly multi-use, hot/cold collection travels from camping box to kitchen, combining the smooth-fired feel of ceramic with Stanley's legendary durability and stay hot (or cold) all day insulation.

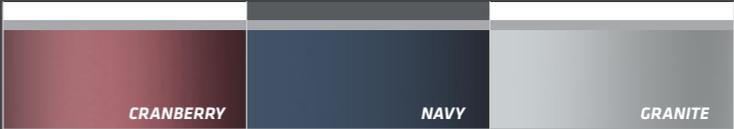

CERAMIVAC™ TECHNOLOGY

A durable ceramic finish on vacuum insulated stainless steel. This new finish provides an optimal balance of durability, cleanability, stain resistance, and none of the metallic taste or smell. Plus, it's BPA, PFOA, and PTFE-free.

GO SERIES WITH CERAMIVAC™ FEATURES + COLOR SYSTEM

Ceramivac™ finished 18/8 stainless steel double-wall vacuum insulation, naturally BPA-free, and all dishwasher safe with non-skid footpads. This series also includes a wide range of leakproof and car-cup compatible products.

Go
SERIES

ANOTHER STANLEY ORIGINAL.

1 LIKE YOUR CERAMIC MUG, ONLY BETTER.

The new extended ceramic lip on the updated travel mug makes it feel more like you're sipping from a classic mug, but one that's vacuum insulated stainless steel for the best thermals and is practically indestructible. Oh, and one that has no metallic smell or flavor, just like any other ceramic mug.

2 TOPPED OFF.

It's the first leak proof ceramic mug of its kind, with a smooth edge and a lid that flips forward for a tight seal for packing, and backward for on-the-go drinking. And the entire lid unscrews and disassembles for deep cleaning.

3 GET A GRIP.

And since your favorite mug at home has a handle, these travel mugs have one too. But it's super low profile so it won't interfere with your cup holder or take up extra space in the cupboard.

CERAMIVAC™ FINISH
A durable ceramic finish on stainless steel vacuum insulation

OVERMOLDED HANDLE
For a sure grip and on-the-go comfort

Flip forward for a tight leakproof seal for packing.

Flip backward for on-the-go drinking.

Flip upward for removal and easy cleaning.

STANLEY **vs.** THE WORLD

A young climber dropped her Stanley from 1,000 ft up. Assuming it was gone for good, she continued on.

Weeks later, she returned to the base of the cliff to find another group of climbers bragging about their latest find: a “brand new” Stanley.

Master SERIES

ULTIMATE + UNRIVALED

For the pro's pro, the toughest of the tough and those who demand the very best, our Master Series offers unrivaled durability and thermal retention. A century of know-how meets state-of-the-art in every detail.

QUADVAC™ TECHNOLOGY

Adds a double layer barrier to double wall vacuum insulation. The four layers add protection from convective, conductive and radiant energy transfer. QuadVac™ insulation locks in heat or cold better than any other technology out there.

MASTER SERIES FEATURES

All Master Series products are 1.0 mm 18/8 stainless steel, BPA-free, and dishwasher safe. The series includes a wide range of leakproof, packable, and car-cup compatible products.

FOUNDRY BLACK

STANLEY **vs.** THE WORLD

In 1980, an unexpected pothole caused a Stanley to fly off the back of a motorcycle that may or may not have been going faster than it should have. Despite soaring 50 yards down Route 77, it lived to ride again.

STANLEY **vs.** THE WORLD

In 1993, a Stanley flew off the back of a truck going 60 miles per hour. But the driver wasn't worried—his name was engraved in the bottom. And he knew that the Stanley would survive. He couldn't say they same for anyone who tried to pick it up before he got back.

Adventure
SERIES

BILLION STAR DINING

"This tastes pretty good for a campfire meal" is not a compliment. That's why we created the The Bowl and Spork Compact Cook Set, with everything you need for prepping, serving, and cleaning. And it nests for easy carry-in and carry-out.

But more than that, the frypan is 3-ply, the same quality as the ones in your kitchen. It provides an even heat that saves you from hot spots burning up your perfect pancake breakfast, or scorching the batter you'll need to scrub off. Because the only thing better than hearing "This meal is amazing," is "You cooked, I'll clean."

Adventure SERIES

RUGGED + ESSENTIAL

For those who start or end their best days in the outdoors, the Stanley Adventure Series combines our legendary tough construction with the features outdoor adventures demand.

PERFECT FOR:

CAMPING

BBQ'S

DAYS THAT
END IN "Y"

TAILGATING

From backyard BBQs to the campsite, this collection has you covered, from craft cocktails to craft cuisine. Elevate your outdoor social game.

STANLEY CUSTOM PRINT PROGRAM

All products are available for Stanley's custom print program.

See page 46 or contact your account manager for further details.

BUILT FOR LIFE™ LIFETIME WARRANTY

Stanley has stood the test of time because it's built to. That's the Stanley Promise.

Since 1913, we've built our gear to outlast damn near everything. Frankly, we've built it to outlast you. So it's no wonder that Stanleys have been known to stand up to some pretty tough stuff: bulldozers, bullets, explosions, hurricanes.

No matter what you put it through, your Stanley will hold up and the contents will stay hot (or cold). It's an agreement that we've been proud to shake on for over 100 years.

But nobody's perfect. If your Stanley doesn't live up to its legendary reputation, we'll do what it takes to make it right. It's that simple.
